

Non-Destructive Entry for Law Enforcement

MCOLES PA1 CPE registered (Agency Selected) and MCOLES 302 funding registered

Why use Non-Destructive Entry (NDE)?

NDE offers an alternate option to a forced entry. Techniques such as lock picking can allow patrol officers, supervisors, command officers, detectives, surveillance/narcotic officers, special response/SWAT teams, Federal, State, County and Local law enforcement a covert and non-destructive entry method. NDE can be appropriate and helpful for welfare checks, community caretaker functions, suspicious circumstances, search warrants, a tactical option, covert entries, or even a home lockout.

Forced entry is the *most expensive* and *least efficient* method of entry, and is not always necessary. With forced entry, there are significant costs of repair or replacement of a smashed door, broken lock and split door frame, all of which costs several hundred dollars to well over \$1,000, not to mention officer time waiting for board up or repair crews, litigation and loss of goodwill.

COURSE: This 4-day course will introduce participants to the core basics of non-destructive entry, including lock-picking techniques, bumping, and bypass methods over a 4-day course with more than 200-300 locks. Participants will practice on residential and commercial locks, padlocks, deadbolts, knob locks, lever handled locks, and mortise cylinders. A robust set of professional lock picking set/other tools provided. **April 28-May 1, 2025.** Cost is \$1800.00, all student issued tools included.

“WHY KICK IT WHEN YOU CAN PICK IT”®

Course Registration: Enrollment is Easy! Online at www.professionallpolicetraining.com with the online form, or send an email to enroll@pstgpro.com
